

# Black Label AI – ADA Business Loan Package

Empowering ADA-Accessible Evolving Intelligence for the People

**Founder:** King (aka Kyle Zeno Winterheimer)

**Website:** <https://idyllic-platypus-d7032a.netlify.app>

## Overview:

Black Label AI is an ADA-compliant AI platform designed to empower underserved communities, including formerly incarcerated individuals, and low-income entrepreneurs. This document represents a live business application package for small business loan officers, grant evaluators, and ADA compliance reviewers.

We are committed to building mobile, accessible, real-time AI education and deployment tools. All hosts and documentation meet or exceed WCAG and ADA Title III standards.

This document and live deployment demonstrate active readiness and operational capacity.
